PUBLIC DECLARATION ON CARBON EMISSIONS

Confidential Information

TARO PLAST is fully committed to sustainability as evidenced by our participation in The Zero Carbon Project (TZCP). We believe in transparency and accountability, which is why we provide the following information regarding our carbon emissions, progress, and targets. Our progress and processes are meticulously documented and reported.

Carbon Emission Figures (Scope 1 and Scope 2):

	Base year - 2020	Most recent year - 2025
Scope 1 emission (in Tons of CO ₂)	685	513
Scope 2 emission (in Tons of CO ₂)	8386	6685

Carbon Intensity Reduction:

Our scope 1 & scope 2 CO₂e intensity (per unit of sales) **was reduced by 54%** from 2020 to 2025, **fully achieving our target of 50% reduction by 2025.**

Main implemented actions to reach this result:

- Introduction of inverter equipment;
- Replacement of lighting lamps with LED lamps;
- Replacement of equipment with higher efficiency in case of the event of breakdown or end of life;
- Diesel forklift replacing with electrical ones;
- Replacement of gas boilers with heat pumps;
- Increase of Green Energy from renewable sources.

We are proud of our achievements thus far and remain committed to continuous improvement in our sustainability efforts.

Thank you for your attention to our sustainability endeavors.

Sincerely,

Sustainability Manager

Antonella Mignozzi
